Dear teacher

You have told the class that next month there will be a mystery project, but gave almost no information. That is why, I would like to ask you some questions.

What kind of materials do we need? This information will help us to choose the right ones.

We will work alone or in a group? A lot of my classmates want to make project in a group, because it is much more interesting, than work alone. In my opinion, it is a good way to improve our communication.

How much time we will have? We have to know when we can start to do not waste our time.

Dear teacher

You have told us that next month there will be a mystery project, but gave almost no information. That is the reason why I am writing this letter. I hope that you understand us and write clear answers.

We want to know what materials we will need, during the work. It helps us to choose right ones.

Could I ask whether ^{we} you will work alone or in a group? Your answer helps us to organise our work and give you a work what you expected.

How much time we will have for complete the task? We have to know when we can start to do not waste our time.

What we should prepare in advance? Maybe we should bring special resources or make researches. Thanks you for your time and help. This project will be interesting to complete and ~~save~~;

Best wishes

Nargiz
