Writing Theme B)

Hello, school's newspaper article!

We and the other members of newspaper club thought about improving some of small places in our school, which would make our school more comfortable. And we thought about a corner near library as the first place.

You would ask "why?", and here is the answer: Many people at school like to hang out in quiet places like library. So we thought about making similar place, a corner near it.

It needs improvement, because we can make our school more comfortable. We would stick motivating notes to the walls so our students are staying cheerful and motivated all the time. We'll add comfortable soft chairs, and book shelves with classic literature. We also can put a vending machine with drinks, so not to stand in huge queue in cafeteria.

Since library is the most quiet place in the school, I don't think it will be a problem about noise near it, so students can stay there and study. But it's not about the students only. You see, there are a lot of people who prefer to stay alone at break, who don't want to stay in classroom, so they can hang out there and not bother others.

So in conclusion, we all want to say that if we want to make our school more comfortable and modern, we must start with small places, such as corners, for example.
