Writing. (E)

I want to make a review of my headphones. It's my favourite thing in the whole world and I use it every day.

I chose to tell about my headphones, because I can not live without it. I listen to music when I can not fall asleep, when I am sad, when I am doing my homework, it helps me concentrate, I use it when I go somewhere, or I travel by car or by plane. I use it to watch videos or movies or to talk to my friends without bothering anyone.

If my headphones disappeared I would be very bored and my family would be angry at me, because I like to listen to loud music, usually I do it when I am wearing my headphones, and if the disappeared, I would play it on my phone and it would annoy them very bad.

There's also some disadvantages of my headphones, like listening to loud music is bad for ears, you can become deaf! It is also very distracting sometimes.

I degenetely would recommend it! If your life seems boring, buy yourself a pair of headphones, it's like a soundtrack for your life!
