IV. Writing.

Today in the world we have a lot of skills. But not all of these skills may be useful in real life. You should improve your skills in teenage age, because if you learn it before adult, it can be easier to do your wishes in the future.

In my opinion learn languages is the most useful skill teenager can learn today. Firstly, no matter who you are, where are you living you can learn languages everywhere. You choose pay many for teachers or study free by any apps on your phone. Secondly, it helps communicate and make new friends. If you know many languages you can speak with people from other countries. Thirdly you can make money from this. You can be a online teacher in teenage age and learn students like you. I think it's important because world not stand on the one position and you have to learn more and more new information like traditions and languages from other countries. I have (learned france and It's helped me.) a trip to France and there was no one who can speak

Russian or Kazakh. And my skill learning France language has helped me.

In conclusion I want to say that all of skills are important, but learn languages for teenager is the most useful.
